THE C.E.O
MESSAGE
ISABEL BOCKLE
CEO , HOME GRAIN INDUSTRIES

At Home Grain Industries (KE) Ltd, our mission and vision are at the heart of everything we do. We are committed to providing you with the finest agricultural products, championing sustainability, and driving innovation. Our vision is clear - to be a global source of nourishment, making a positive impact on communities. Together, we can shape a more sustainable, prosperous nourished future. Thank you for choosing Home Grain Industries (KE) Ltd as your trusted partner in agriculture.

ABOUT OUR COMPANY

ABOUT HOME GRAIN INDUSTRIES (KE) LTD.

At Home Grain Industry (KE) Ltd, we are more than just a company- we are committed to quality , innovation and agricultural excellence. We have consistently been a trusted source of a wide range of agricultural products, serving both our local and international clients based in Kenya and Tanzania with dedication and integrity.

OUR COMMITMENT TO QUALITY

Our core focus is on agricultural produce, and we take immense pride in delivering premium quality products to our customers. Whether you need the finest Maize Flour, Wheat Flour, Vegetable Oil, Chicken Feeds, Rice, Sugar, or other agricultural commodities, we are your dependable partner. We understand the significance of quality in the food supply chain, and we go above and beyond to ensure that our products meet the highest industry standards.

INNOVATION AND SUSTAINABILITY

Home Grain Industry (KE) Ltd is committed to advancing agricultural practices that are both environmentally sustainable and technologically innovative. We invest in modern farming techniques, machinery, and research to ensure the production of high-quality, safe, and nutritious agricultural products

VISION & MISSION

Vision

Provide Quality and Diverse agricultural Products: We are dedicated to supplying the finest agricultural products, including Maize Flour, Wheat Flour, Vegetable Oil, Chicken Feeds, Rice, Sugar, and more, meeting the needs of our diverse customer base.

Champion Sustainably and innovation: We are committed to advancing sustainable farming practices and technological innovation, ensuring responsible sourcing and processing to minimize our environmental impact.

Enhance Global Food Security: We work tirelessly to contribute to global food security by producing safe, nutritious and accessible food products for communities worldwide.

Empower Farmers and Foster Economic Growth: Our mission includes empowering farmers through knowledge sharing, access to resources and fair partnerships, contributing to the growth of the agricultural sector and local economies.

Mission

At Home Grain Industries (KE) Ltd, we have a comprehensive vision for the future:

Sustainability Leadership: We envision becoming a preeminent force in the agricultural industry by pioneering and championing sustainable farming practices, aiming to preserve and protect our planet's resources while ensuring long-term agricultural viability.

Innovative Excellence: Our vision is to drive innovation and uphold a commitment to unparalleled quality by embracing cutting-edge technologies and best practices, delivering agricultural products that consistently exceed customers' expectations.

Global Nutritional Impact: We aspire to be a global source of nourishment, reaching and enhancing communities on a worldwide scale by supplying safe, nutritious and accessible agricultural products, contributing to food security and public health.

Transformational Catalyst: We see ourselves as a catalyst for transformative change in the agricultural sector, playing a pivotal role in creating a world where responsible agricultural practices, sustainability and prosperity intersect, benefiting societies and economies worldwide.

BUSINESS PLAN

1. FACTORY LEASING BUSINESS PLAN

Focus: Offering factory spaces for lease to manufacturing and production businesses.

Executive Summary

- Vision: To be the leading provider of affordable and well-equipped factory spaces in Kenya.
- Mission: To support entrepreneurs and industries by providing accessible manufacturing spaces.

Market Analysis

- Target Market: SMEs, startups, and established industries in food and general manufacturing sectors.
- Competitors: Analyze the current factory leasing options in your area.
- Opportunity: Growing demand for affordable and strategically located factory spaces.

Operations

- Property Management: Regular maintenance and upgrades of factory facilities.
- Customization: Offer flexible leasing terms and optional customizations.
- Safety: Ensure facilities comply with health, safety, and environmental standards.

Marketing Strategy

- Advertise on online platforms like LinkedIn and local classifieds.
- Showcase facilities at trade fairs and industrial expos.
- Offer discounts for long-term leases.

Financial Plan

- Initial Investments: Ksh 10 million for upgrades and marketing.
- Revenue Goal: Ksh 25 million in Year 1.

2. ANIMAL FEED PRODUCTION BUSINESS PLAN

Focus: Producing high-quality feeds for livestock, poultry, and aquaculture.

Executive Summary

- Vision: To boost animal productivity and farmer incomes through superior feed solutions.
- Mission: To provide affordable and nutritionally balanced animal feeds for all.

Market Analysis

- Target Market: Dairy, poultry, and fish farmers in rural and urban areas.
- Competitors: Identify major feed producers and find a unique value proposition.
- Opportunities: Demand for cost-effective, high-performance feeds.

Operations

- Raw Material Sourcing: Partner with local farmers and suppliers.
- Production: Develop high-nutrition formulas for different animal types.
- Distribution: Leverage agro-dealer networks and regional hubs.

Marketing Strategy

- Seasonal Promotions: Christmas and festive season offers.
- Farmer Education: Workshops on feed benefits and management practices.
- Partnerships: Collaborate with agricultural organizations and co-ops.

Financial Plan

- Startup Capital: Ksh 8 million for machinery and raw materials.
- Revenue Goal: Ksh 20 million in the first year.

MARKETING STRATEGY

1. Digital Marketing Strategy

Objective: Build a strong online presence and drive engagement with target audiences.

- Website Optimization:
 - Create a professional website showcasing factory leasing options, food production services, and product offerings.
 - Include a blog with educational content on leasing benefits and farming best practices.
 - Add online payment and inquiry forms for convenience.
- Social Media:
 - Platforms: Focus on Facebook, Instagram, LinkedIn, and Twitter.
 - Content:
 - Post factory tours, product manufacturing processes, and customer testimonials.
 - Share infographics on the benefits of high-quality animal feeds and processed foods.
 - Run seasonal campaigns like Christmas offers for dairy feeds.
 - Use paid ads to target farmers, agro-dealers, and businesses seeking factory spaces.
- Search Engine Optimization (SEO):
 - Optimize for keywords like "factory leasing in Kenya," "best animal feeds," and "processed food suppliers."
 - List the business on Google My Business to improve local discoverability.

2. Customer-Centric Marketing

Objective: Build trust and loyalty with direct customers.

- Offer promotional discounts for new lessees and first-time buyers of animal feeds or human food products.
- Run feedback programs: Create forums or surveys to learn what customers need and improve services.
- Start a loyalty program for repeat customers, offering discounts or free consultations.

3. Traditional Marketing

Objective: Reach non-digital audiences and establish trust.

- Radio and TV Ads: Run region-specific ads highlighting leasing options and the benefits of your feeds and processed foods.
- Billboards and Flyers: Place them in high-traffic areas, especially near farming regions and industrial hubs.
- Exhibitions and Trade Fairs: Participate in agricultural and industrial expos to demonstrate products and leasing facilities.

4. Partnership Marketing

Objective: Build relationships that expand reach and influence.

- Collaborate with county governments and agriculture-focused NGOs to reach farmers and entrepreneurs.
- Partner with SACCOs and cooperatives to offer bundled services like feed discounts or factory space for members.
- Work with supermarkets and agro-vets to stock and promote Home Grain products.

COMPANY OVERVIEW

Introduction:

Home Grain Industries is a Kenyan-based company specializing in factory leasing and food production for both animals and humans. We are committed to fostering industrial growth and supporting agricultural productivity by providing high-quality products and services tailored to the needs of our customers.

Target Market:

Factory Leasing: Entrepreneurs, SMEs, and established industries looking for manufacturing or processing spaces.

Animal Feed: Dairy, poultry, and aquaculture farmers across Kenya and neighboring regions.

Human Food: Urban households, retailers, and export markets seeking nutritious and affordable food products.

Core Services:

Factory Leasing:

Offer state-of-the-art, customizable factory spaces for lease.

Designed for entrepreneurs and businesses in manufacturing and processing industries.

Equipped with modern facilities and located in strategic regions for easy access.

Animal Food Production:

Manufacture high-quality animal feeds tailored to dairy, poultry, and aquaculture farmers.

Focus on nutrition, affordability, and sustainability to enhance livestock productivity.

Human Food Production:

Process grains and agricultural products into consumable goods like flour and snacks.

Maintain high standards of quality, hygiene, and packaging to meet consumer demands.

Key Differentiators:

Integration of factory leasing and food production for operational efficiency.

Strategic partnerships with local suppliers and organizations to support regional economies.

Focus on affordability and accessibility without compromising quality.

FUTURE PLANS

- Develop a mobile app to facilitate bulk purchases and real-time communication with customers.
- Invest in digital marketing strategies to enhance brand visibility and customer engagement.
- Research and Development (R&D):
- Establish an R&D unit to improve feed formulations, develop innovative food products, and ensure quality standards.
- Financial Growth and Investment:
- Attract strategic investors to fund large-scale projects and business expansion.
- Diversify revenue streams by offering value-added services such as logistics and warehousing.
- Brand Development:
- Strengthen the brand as a trusted provider of quality food products and industrial spaces.
- Host annual expos or seminars to showcase services, build networks, and establish industry leadership.
- Automation and Smart Technologies:
- Integrate smart technology into factory management for efficient leasing processes.
- Invest in automated machinery for food production to enhance productivity and reduce costs.

- Expansion of Factory Leasing Services:
- Increase the number of factory spaces available for lease across major towns in Kenya.
- Upgrade existing facilities with advanced technologies and eco-friendly solutions to attract more industries.
- Expand human food production to include ready-to-eat products, fortified foods, and export-oriented goods.
- Establish partnerships with farmers to promote contract farming for a consistent supply of raw materials.
- Regional and International Market Expansion:

- Explore sustainable production methods, such as renewable energy and waste management systems.
- Community Development Initiatives:
 - Launch training programs for farmers on modern farming techniques and feed usage.
 - Support youth entrepreneurship by offering subsidized factory spaces and mentoring programs.
 - Collaborate with schools and NGOs to provide nutritious meals in feeding programs.
- Sustainability Goals:
 - Transition to using renewable energy sources like solar power in production and factory operations.
 - Implement zero-waste production techniques and recycle agricultural by-products into fertilizers or animal feeds.
 - Contribute to reforestation projects and promote environmentally friendly practices among stakeholders.
- Penetrate markets in neighboring East African countries such as Uganda, Tanzania, and Rwanda.
- Explore export opportunities for processed foods to Europe and the Middle East.
- E-commerce and Digital Integration:
 - Launch an online platform for factory leasing inquiries, product orders, and customer support.
- Develop industry-specific zones (e.g., food processing, textile, or chemical production) to cater to diverse manufacturing needs.
- Diversification of Food Production:
 - Introduce new animal feed varieties tailored to niche markets like organic and high-performance livestock feeds.

MAIZE MILL FACTORY TO LEASE

why choose us?

Co-packing:
The factory provides professional maize milling services, transforming raw maize into high-quality flour. Clients can rely on consistent production tailored to meet their unique needs and specifications.

Sales & Distribution:
The factory offers support in distributing finished maize flour to markets through an efficient logistics network.

Raw Materials Supply:
Clients can either supply their maize or rely on the factory to source high-quality raw maize. This ensures a steady supply chain for uninterrupted production.

Assistance in Attaining License:
The factory helps clients navigate the process of obtaining required licenses and certifications. This ensures legal compliance for smooth production and distribution.

In-House Flour Packet Printing:
The factory provides customized packet printing services, ensuring the flour is attractively packaged to match the client's branding.

Staff Training:
Training programs are offered to equip client staff with skills in milling, quality control, and packaging.

WHEAT MILL FACTORY TO LEASE

Why Choose Us

CO-PACKING

The factory processes raw wheat into high-quality flour tailored to clients' specifications, ensuring consistency and adherence to industry standards.

Sales & Distribution:

Assistance is provided to distribute the finished wheat flour efficiently to various markets, ensuring timely delivery to retailers, wholesalers, and customers.

RAW MATERIALS SUPPLY:

Clients can provide their wheat or rely on the factory to source premium-quality raw wheat for uninterrupted production.

IN-HOUSE FLOUR PACKET PRINTING:

The factory offers custom branding and packaging solutions, creating visually appealing packets that align with the client's marketing strategy.

ASSISTANCE IN ATTAINING LICENSE:

Clients are guided through the process of obtaining licenses and certifications necessary for the production and distribution of wheat flour.

STAFF TRAINING:

Training programs equip client staff with skills in milling operations, quality assurance, and packaging to maintain production efficiency and consistency.
